

APOLLO FACT SHEET

BLACK DETECTORS

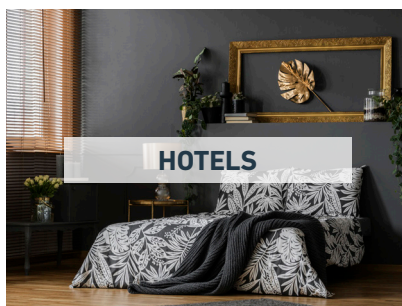

WHY USE BLACK DETECTORS?

Apollo's black detectors offer a solution that enhances flexibility and design versatility. By incorporating black detectors into your systems, you gain the ability to seamlessly integrate various colours, meeting diverse aesthetic demands without compromising on performance or functionality..

APPLICATIONS

Black detectors provide a premium aesthetic for high end interiors. Specifiable feature in projects with exposed or black ceilings in industrial themed commercial facilities, such as cinemas, nightclubs, hotels, industrial high-end interiors, airports and restaurants.

BLACK DETECTORS

REACH
WIRELESS

REACH Wireless Black Range

Suitable for time sensitive installations

Optimised radio coverage while minimising battery use for greater flexibility

Allows existing fire systems to be extended by bridging wireless devices to a wired loop
